

FREE HEARING SCREENING

We conduct free screening of hearing for anyone 18 yrs and older.

The test involves testing your hearing over a number of frequencies and the result will be given in the form of either a pass or a fail at anyone of these frequencies in either ear. The test is designed to identify those who may have a hearing problem and who require further audiological diagnostic evaluation.

(Please note this is a hearing screening test only; passing the test does not necessarily indicate your ears / auditory system do not require further audiological / medical examination if there are symptoms which need to be investigated, eg tinnitus, dizziness, ear ache)

If you are interested in having a free hearing screening test please fill the section below and submit this form, we will contact you and organise an appointment. You may also call us on 9326 2231 for the Melbourne area or 5241 6400 for the Geelong area.
